

Herbalife Nutrition Launches New Mom Nutrient Booster for Mothers of Babies and Toddlers

August 6, 2018

LOS ANGELES--(BUSINESS WIRE)--Aug. 6, 2018-- Premier global nutrition company, [Herbalife Nutrition](#) (NYSE: HLF), recently launched its New Mom Shake Booster. The Company formulated this product to meet the personalized nutrition needs of mothers of babies and toddlers.

New mothers often find it difficult to keep up with the increased nutrients they need during the hectic months and years that follow the delivery of a baby. It's a special time with unique nutritional challenges for new moms, especially if they are breastfeeding. The New Mom Shake Booster contains vitamins and minerals to support healthy mental performance and focus. Vitamin A supports the immune system and vitamin D and calcium support and maintain strong bones and teeth. Vitamin B6 contributes to the regulation of hormonal activity and folate aides in the reduction of tiredness and fatigue. Iron and copper help the body fight fatigue and support the immune system. Thiamin supports healthy sleep and memory, and riboflavin and B12 support energy. Zinc supports immune function and ultimately maintains wellness.*

"This booster was formulated by nutrition scientists, and manufactured with the highest standards in mind to help new moms optimize their nutrition," said Dr. John Agwunobi, co-president and chief health and nutrition officer, Herbalife Nutrition.

Designed to be taken once a day, the New Mom Shake Booster contains no added flavors, colors, sugars or other sweeteners and can be added to any Herbalife Nutrition Formula 1 Nutritional Shake Mix or other beverage. The booster package contains a 30-day supply of easy to use stick packs, with a suggested retail price of \$36.
