Established in 2005, the Casa Herbalife Nutrition program was originally committed to bringing good nutrition to children worldwide living in orphanages through after school centers and other nonprofits. The program has since rapidly progressed, providing grants to organizations ranging from hospitals, schools and other educational facilities. In addition to initial financial grants made by the HNF, the organizations also receive local financial and volunteer support from Herbalife Nutrition independent distributors and employees.

The Herbalife Nutrition Foundation also supports disaster relief efforts by partnering with the American Red Cross and other local organizations to increase food, clothing, blankets, supplies, housing and safe spaces for affected children and their communities.
